Flexibility.

Requirement three.

Flexibility.

The screenshot shows a user interface for a course example. At the top, there is a navigation bar with links for Home, My Learning, My Team, Find Learning, and Calendar. A user is logged in as 'Learner Five'. Below the navigation bar is a banner with the text 'LEARN SHARE COLLABORATE' and a 'Kiwi' logo. A sidebar on the left contains a 'NAVIGATION' menu with options for Site home, Current course, Course Example, and My courses. The main content area is titled 'COURSE EXAMPLE' and displays a learning path diagram. The path starts with three 'Pre-Work' assessments (Pre-Work Assessment, Pre-Work One, Pre-Work Two), each marked as 'COMPLETE'. An arrow labeled 'before your workshop' points from the Pre-Work One and Two boxes to a central area. This central area contains an 'Exciting Workshop!' box, also marked as 'COMPLETE'. An arrow labeled 'after your workshop' points from the workshop box to a 'Post-Workshop Assessment' box, which is also marked as 'COMPLETE'. Below the workshop and assessment boxes are two 'Post-Work' assessments (Post-Work Two, Post-Work One), both marked as 'COMPLETE'. At the bottom of the diagram are three 'Additional Learning' boxes, with a vertical label 'find out more!' on the left. The entire diagram is enclosed in a red border.

100%

of respondents said the visual pathway made their course progress clearer & easier to understand.

100%

of respondents said the visual pathway was more interesting & engaging than previous Totara courses.

“...the way it kept to the same pattern made it easy to follow and I liked the front page layout as it gave me a clear indication as to where I was up to...”

“...it showed a clear pathway that was easy to navigate both forwards and backwards.”

“...it gave me a good overview of what was to come, and what I needed to do so I could manage my time. Having the boxes completed off was helpful as well so I knew visually how much progress I had made.”

How can you build learner engagement?
